## FALL 1903 MOVES ARE DUE

SATURDAY, 3 February

**NOTE:** Austrian Army Rumania retreats to Budapest (only place open)

**ADRIANOPIE:** The Sultan Greenbaum III ordered the 3rd Army Commander shot, drawn, and quartered. The infamous Canadian soldier of fortune failed to issue correct orders for the Turkish army he commanded. So instead of attacking Bulgaria the Turkish 3rd Army wandered about Constantinople drinking a foul Canadian import called "B.O." By the time the Chiefs of Staff were aware of what had transpired the soldiers were incapable of walking much less fighting. OH! What a sad fate for the soldiers of the Faithful!

pizza, grease, switch blades, olive oil, and useless southern Italian peasants; and disturbing government affiliated pirates. As our boys in the North Western Mob have shot up the local border officials and liberated some 14,000 members of our French Mafia forces we are willing to talk peace under condition that our governments' foreign agencies (The Mafia) are recognized by France. Also the Barbary Pirates have made an alliance with us for preservation of corruption, anarchy, and sin in general.

VERSAILLES (19 January) Unoffical rumors: I hope you didn't blow it again, Nicky.

WASHINGTON: England, sorry about war with Canada. No offense meant-- but, well, bheer!

UKOMAASIA: Ukomaasian diplomats, on their way to offer thanks to the Italians for declaring war on Austria, were met with rifle fire, and forced to seek cover behind the beginnings of the 5,000 mile foundation of the wall which will soon be built to facilitate withdrawl from the problems of Europe. Could this mean the Italians don't like

Spring 1902 Moves are due here on Sat. 3 February, 1968

---

WASHINGTON: -- All right Canadians, you're in deep. The first Army Group masses in Syracuse and Birmingham, the Fifth in Buffalo and Detroit, the Seventh from Seattle to Fargo. BHEER For the Austrians, our helpful and loving friends? I'LL GIVE YOU BHEER! WAR! WAR! WAR with CANADA!!!

WARSAW: After reviewing the action of the Turkish Black Sea Fleet, the Tzar has decided to commission the Royal Southern Navy to build another fleet for action in the southern waters of Russia. With the First Fleet of the R.S.N. stationed in Rumania the new fleet will help in the safeguarding of Russia's Southern boundary. The R.S.N. stated that a note had been sent to the Turkish Government giving the Turks the Decision to escalate or not in the Black Sea area. Apparently the Turks wish to bring action against themselves.

VERSAILLES: (22 December) The French government has little hope for peace with any of its neighbours. While our embassy in Vienna has received diplomatic notes from both England and Germany in the past month, one was threatening and the other was an ultimatum. No answer was received to our note to Italy, delivered via Russia. However, King Coleman is sitting tight, is prepared to fight off all three of these invaders, and will never make peace except on reasonable terms.

The following may be considered an official reply to England's message: 'I would have done the same had I not been the righteous, honorable, and courteous defender, but the evil, traitorous, and foolish aggressor. Think not twice on't.

The following may be considered an official reply to Germany's message: A French delegation will be in Geneva on February 27 to discuss and such matters.

But fear not, loyal Frenchmen! The Royal Government marches on, does not flag or fail, does not cry for quarter, does not give up Frenchmen's lives in vain! Vive Le Roi, vive les francais, VIVE LA FRANCE!

MOSCOW: After reviewing the action of the Turkish Black Sea Fleet the Tzar has decided to commission the Royal Southern Navy to build another fleet for action in the southern waters of Russia. With the 1st Fleet of the R.S.N. stationed in Rumania the new fleet will help in the safeguarding of Russia's southern boundary. The R.S.N. stated that a note had been sent to the Turkish Government giving the Turks the decision to escalate or not in the Black Sea area. Apparently the Turks wish to bring action against them.

ROME: Italy accepts France's appeasement offerings. France has allowed a plebescite in Monaco with the local Mafia running the voting. Our government was disgusted and had to retaliate for several acts of French Imperialism such as: having honest custom officials on their Italian border; harassing our international exporting of spaghetti,

Ukomaasia?

BERLIN: It is the pleasant duty of the German Government to inform the world that, from January 1st, 1902 on, Luxembourg would be the new center of the world. All maps shall place it at the center, and put the rest of the world around it. Oh, course, those countries next to it will be greater than those farther away. And the Kaiser took great pride in pointing out that France is next to Luxembourg.

I don't agree with you about Diplomacy rating lists. ((see editorial, JJ # 7)) I don't believe any one list should be adopted as official because I don't believe it is possible to have one list tell you everything about a player. After all, there isn't one list that tells you everything about baseball players. You have batting averages for batting, number of wins and losses for pitchers, and so on. In Diplomacy, Reinsel's list tells you something and McCallum's tells you something else. They are both important but neither is so important that it deserves to be listed as Official.

Would you settle for an arrangement whereby all the experienced players (say, those who are now in a game and have completed a game---the former to get rid of people like Pelz and the latter to ensure experience) elect a Best Player of the Year each year (and maybe a best new player)?

((You have a good point there, Charles; well worth looking into.))
